Committed to Quality.

Since our beginning in 1972, Innovation Industries has designed and manufactured elevator components of the highest quality, as indicated by our ISO 9001 certification, with the shortest lead times in the industry...stock or custom products. State of the art manufacturing equipment and processes, combined with our staff of skilled professionals, ensure all our signal fixtures are delivered on time and to your exacting requirements.

Plus, we are able to produce fixture prototypes rapidly and accurately for the most demanding customers. This commitment to quality is the benchmark for every product we have made over the past 35 years.

Innovation is our name and you can expect to see it in every product we make. Today and tomorrow.

Unlimited Choices.
Unmatched Quality.

Our in-house design and engineering staff, combined with our CNC and laser manufacturing equipment, build your project to the highest tolerances and exact specifications.

Our customer service representatives know your business and with the fastest lead times in the industry, you can understand why so many OEMs, service companies, architects and building owners turn to Innovation.
UNIVERSAL

The Industry Standard of Standard Fixtures.

There’s nothing standard about these fixtures. The Universal Series offers more features than any other manufacturer’s line of standard fixtures.

Car Station Features as Shown:
- #4 brushed 304 stainless steel
- Round Braille
- PB-1 push button
- Also available with PB-2, PB-3, PB-4, PB-5, PB-6

See pages 13-16 for complete push button and metal options.

Available Braille Options
- Round, 1.375” diameter
- Square, 1.25” square
- Oval surround

SECURITY

Street Tough.

Built for high traffic, hard duty installations, the Security Series is designed to take hard use year after year.

Car Station Features as Shown:
- #4 brushed 304 stainless steel
- Square Braille
- PB-13, PB-14 push button
- Also available with PB-15, PB-16, PB-17, PB-18, PB-19, PB-20, PB-38, PB-41, PB-42

See pages 13-16 for complete push button and metal options.

DECORATOR

The Flexible Performer.

The Decorator Series offers a modular design with time proven, tough and reliable, push buttons, key switches and emergency operation components.

Car Station Features as Shown:
- #4 brushed 304 stainless steel
- Integrated Square Braille
- PB-7 push button
- Also available with PB-8, PB-50, PB-51

See pages 13-16 for complete push button and metal options.

Available Braille Options
- Square, 1.25” square

**PREMIER**

The Versatile Choice.

Rectangular or elliptical faceplate designs combined with a wide choice of push buttons make the Premier Series one of our most versatile fixtures.

Car Station Features as Shown:
- #4 brushed 60/40 muntz/bronze
- Oval surround Braille
- PB-21 push button
- Also available with PB-22, PB-31, PB-32, PB-33, PB-34, PB-44

See pages 13-16 for complete push button and metal options.

**BRUISER**

The Heavy-Duty Champion.

Everything about the Bruiser Series is designed and manufactured for rugged, unmatched strength and durability.

Car Station Features as Shown:
- #4 brushed 304 stainless steel
- Square Braille
- PB-23, PB-24 push button
- Also available with PB-25, PB-26, PB-27, PB-28, PB-43, PB-52, PB-53, PB-54, PB-55

See pages 13-16 for complete push button and metal options.

**PRESTIGE**

Beauty and Brawn.

The Prestige Series combines the best of all worlds...an ultra-sleek appearance combined with unsurpassed durability.

Car Station Features as Shown:
- #4 brushed 304 stainless steel
- Square Braille
- PB-35 push button

See pages 13-16 for complete push button and metal options.
Swing Return and Car Station Combination Fixtures

Innovation Makes It Easy.

Coordinating swing return and car station installation has never been easier. We offer a complete swing return and car station combined into an easy to install, one-piece unit.

Car Station Features as Shown:
- #4 brushed 304 stainless steel
- Square Braille
- PB-1 push button

See pages 13-16 for complete push button and metal options.

DIAL INDICATORS

Classic Lines.
Our dial indicators are offered in vintage, antique designs that capture the nostalgic look of yesterday as well as contemporary, architectural and unique custom designs to complement any project. All dial indicators utilize a 3-wire network and micro-controller for absolute reliability. Metal and/or plastic finishes and treatments are limited only by your imagination.

I-LINE®
The Surface Mount Solution.
Surface mount applications are solved with the I-Line Series. Ideal for ADA and retrofit projects, these hinged fixtures offer quick installation and rapid service.

See pages 13-16 for complete push button and metal options.
One Source. Unlimited Choices.

Innovation is your one-source for Hall Stations, Lanterns and Position Indicators.

Available in an almost endless variety of shapes and sizes, metal finishes, engraving, push button and illumination options, our Hall Stations, Lanterns and Position Indicators meet or exceed standard and special building compliance codes.

See pages 13-16 for complete push button and metal options.
The Residential Leader

Commercial quality for residential applications, our Residential Series offers a wide variety of standard features and options to satisfy even the most demanding homeowner.

Our Exclusive Multi-Volt Technology.

Every Innovation push button incorporates our exclusive Multi-Volt design, making our push buttons the most brilliant and flexible buttons in the world. Multi-Volt LED illumination technology means any of our push buttons will operate at 6 volts through 120 volts, AC or DC, without changing the lamp.

- Ultra-bright LED illumination in yellow, white, red, green or blue
- Multiple voltage compatibility
- Extra long life lamps
- Lower heat build up
- Patent pending
- CSA approved
Brilliant, colorful and creative, that describes all of our buttons. Exclusive Multi-Volt technology combined with the brilliant, evenly distributed LED lamp illumination, make these bar buttons the first choice for appearance and function.

Features include:

- Multi-Volt technology
- Five ultra-bright LED color choices of yellow, white, green, red, blue
- CSA approved
- Muntz, bronze, mirrored or brushed stainless steel
- Available with illuminated cut out inlay for identifying special floor levels

THE RIGHT FINISH

Our standard metals are finished to the highest level of quality for consistent beauty and tough performance.
