Alliance Elevator Solutions is proud to introduce the Fusion, our first Limited-Use/Limited-Application commercial elevator. The Fusion is the perfect blend of commercial grade equipment engineered specifically for low use applications. Schools, churches and low rise commercial buildings are just a few of the ideal applications taking advantage of the simplistic design. Custom cab sizes, premier fixture choices and various finish options allows the Fusion to compliment the surrounding decor seamlessly. Using an industry leading drive system and exclusive Smartrise controls, the Fusion will provide years of reliable service.

**STANDARD FEATURES**
- ASME A17.1-2013 / CSA B44-13 Code Compliance
- Smartrise Controller
- Automatic or key control
- Commercial-grade fixtures & controls
- Braille/Tactile controls
- Illuminated push buttons
- Emergency lighting
- Reinforced, structural steel sling
- Rigid steel cab construction
- Fire rated automatic sliding doors
- Fire rated plastic-laminate wall panels
- Self-leveling
- Stainless steel handrail
- Emergency stop alarm
- Line rupture valve
- Emergency lowering/battery back-up system
- Hands-free ADA phone
- 36-month limited warranty
- Superior installation & technical support
